Professional Summary

Full-Stack Java Developer with a proven track record of designing and delivering secure, scalable enterprise applications across financial services, insurance, and automotive industries. Experienced in Java, Spring Boot, Microservices, Kafka, PostgreSQL, and React, with a strong focus on clean architecture, API design, and solving real-world business problems through robust software solutions.

Skills

Professional Experience

Freelance Full-Stack Java Developer – N & S Services | 2026 – Present

What I Did: Develop custom automation and AI-assisted applications to reduce manual administration and streamline quoting.

Tech Stack: Java • Spring Boot • React • PostgreSQL • OpenAI APIs

Biggest Accomplishment: Built a solution that converts quote request emails and images into structured quote data.

Reason for Leaving: Seeking a permanent role with stable monthly income and long-term growth opportunities.

Java Developer – Stanchion Payment Solutions | 2025

What I Did: Built and enhanced payment microservices and modernization initiatives.

Tech Stack: Java 21 • Spring Boot 3 • Kafka • PostgreSQL • OpenAPI • Docker

Biggest Accomplishment: Contributed to migration to Java 21 and Spring Boot 3.

Reason for Leaving: Contract completed.

Full Stack Java Developer – PPS | 2023 – 2024

What I Did: Designed secure APIs and enterprise integrations for external partners.

Tech Stack: Java • Spring Boot • OAuth2 • REST APIs • PostgreSQL • Kafka

Biggest Accomplishment: Enabled secure public API exposure through an API gateway.

Reason for Leaving: Contract completed.

Full Stack Java Developer – BMW Group | 2021 – 2023

What I Did: Developed Angular front ends and Java backend services as part of a modernization program.

Tech Stack: Java • Spring Boot • Angular • Kafka • Jenkins • AWS

Biggest Accomplishment: Helped transition monolithic applications into scalable microservices.

Reason for Leaving: Contract completed.

Head of Technical Operations – MHA Management Holdings | 2019 – 2020

What I Did: Led a small development team and coordinated operational and technical initiatives.

Tech Stack: Leadership • Jira • SQL Server • Reporting Tools

Biggest Accomplishment: Reduced key-person dependency by training and delegating to team members.

Reason for Leaving: Transitioned back into a hands-on software development role.

Software Developer – MHA Management Holdings | 2016 – 2020

What I Did: Built reporting and internal business applications and maintained enterprise systems.

Tech Stack: C# • SQL Server • SSIS • SSRS • Crystal Reports • WPF

Biggest Accomplishment: Automated document scanning and indexing for tens of thousands of policy documents.

Reason for Leaving: Pursued opportunities focused on modern Java and enterprise software development.

Technical Assistant & Data Administrator – TIAUTO Investment Holdings | 2014 – 2016

What I Did: Managed reporting, validated claims data, and supported operational processes.

Tech Stack: Excel • SQL • Data Analysis

Biggest Accomplishment: Improved accuracy and turnaround time of monthly reporting.

Reason for Leaving: Career progression into software development.

Featured Project

Event-Driven E-Commerce Platform

Overview: Production-style platform featuring order management, payments, JWT authentication, event-driven communication, and a React admin UI.

Tech Stack: Java 21 • Spring Boot 3 • Kafka • PostgreSQL • React • TypeScript • Docker • Prometheus • Grafana

Key Accomplishments: Implemented order and payment microservices, Flyway migrations, OpenAPI documentation, monitoring, and secure authentication.

Trade-Offs: Chose microservices and event-driven architecture for scalability and loose coupling, accepting eventual consistency and operational complexity.

Future Goals: Inventory reservations, coupon engine, customer storefront, CI/CD pipelines, and cloud deployment.

Education & Certifications

Norkem Park High School

- Top 10 Academic Achiever
- Full Academic Colours
- Chairperson of Academic Committee
- Prefect
- Average: 80%

Van Zyl & Pritchard

- Java Certification
- Average: 85%
